Cox Rapid Heat Sterilizers

Same Fast 6 Minute Cycle Time, With New Instrument Handling and Other Features!

- Instrument basket easily slides in and out of chamber.
- Hinged door folds down and comes equipped with door locking mechanism.
- Instrument basket can be safely removed and transported with newly designed tool.
- Taller opening for easier access to heating chamber.
- High temperature door gasket provides tight seal preventing heat loss.
- Door interrupt switch.

Benefits of Dry Heat Sterilization

- The COX RAPID DRY HEAT STERILIZER utilizes dry heat rather than steam and pressure to sterilize. It won’t corrode, dull or pit your instruments or cause them to rust, thus extending the life of every costly instrument.
- No need to purchase supplies such as distilled water, rust inhibitors, or chemical solutions.
- The superior speed of the COX STERILIZER gets instruments turned around to you quicker, reducing the amount of instrument investment.
- Virtually maintenance free.

Other Key Features

- Updated to latest microprocessor technology for precision time and temperature control.
- Integrated USB port for recording or printing cycle data.
- Use your own thumbdrive to record cycle data or purchase optional printer.

Fast, Easy to Use and Convenient!

Preferred method of sterilization by orthodontists and other dental disciplines worldwide.
