You and your dental team are first in line to ensure that patient records and claims are complete and accurate. The CDT 2016 Companion: Help Guide and Training Manual is the go-to resource that gives you the information that helps your records and claims stand up to challenges.

The Companion features:

- Descriptions of what is new and changed in CDT 2016, and the reasons why codes were added or revised
- Guidance on CDT Code selection through coding scenarios and illustrations in a Q&A format
- An in-depth look at narratives for “by report” codes
- Ways to identify and address possible CDT Code misuse when a payer rejects a claim
- Tables that link CDT Codes with applicable ICD-10 Diagnosis Codes, information that will be valuable when requested by third-party payers

Used in tandem with CDT 2016, the Companion is ideal to update current staff on CDT Code changes or use a training resource for new employees. Use it for staff meetings, quick training sessions, or as a reference guide to help your team code with skill and confidence.
Table of Contents

Section I. The Code on Dental Procedures and Nomenclature (CDT Code)

Chapter 1. Introduction to Dentistry’s Code Set
A Brief History
Purpose
Categories of Service
Subcategories
Components of a Dental Procedure Code
How to Select a Procedure Code
What If There Is No Code Describing a Procedure
CDT Code Maintenance – Additions, Revisions and Deletions

Chapter 2. CDT 2016 – Notable Changes/What & Why

Section II – Using the CDT Code

Chapter 3. Scenarios – Day-to-Day Use
#1 Patient age 11 – evaluation and preventive services
#2 Child under three – evaluation and parent counseling, and preventive services
#3 Radiographs – What constitutes a full mouth series?
#4 Fractured tooth – after hours visit and the final restoration
#5 Indirect restorations – laboratory crowns vs. in-office CAD/CAM crowns
#6 Multiple restorations on the same tooth
#7 Sleep apnea appliance
#8 Dates of service for prosthodontic treatment and for endodontic treatment
#9 Oral cancer – an enhanced examination
#10 Orthognathic surgery planning
#11 Modifying an existing partial denture after an extraction
#12 Implant supported denture for an edentulous patient
#13 A “Maryland” bridge
#14 Temporomandibular joint (TMJ) disorder treatment
#15 Sectioning the fixed partial denture of a patient with periodontal disease
#16 Treating a traumatic wound a mouthguard could have prevented
#17 A child who needs endodontic treatment and a crown
#18 Treating a patient suffering from swelling, pain and periodontal disease
Chapter 4. Questions & Answers

CDT Code...
Part 1 – Q&A concerning additions and revisions in CDT 2016...
Part 2 – Q&A on entries from past versions relevant today...
